

Izhak Anidgar

Head of QA | Automation & Quality Engineering Leader

+972-52-8635700 | tanidgar@gmail.com | Israel

QA automation leader with a track record of owning automation strategy and framework architecture end-to-end (UI, API, Integration, E2E), integrating CI/CD with quality gates, and driving the shift from manual to automation at scale. Experienced leading and mentoring engineering teams, and applying agentic AI to real delivery workflows.

PROFESSIONAL EXPERIENCE

Head of QA Department | YouCC

2025 – 2026

- Defined and executed company-wide automation strategy and QA roadmap
- Architected scalable automation solutions (UI, API, Integration, E2E)
- Built frameworks from scratch and integrated CI/CD with Quality Gates
- Led QA and automation initiatives for Agentic AI solutions, validating AI-driven workflows, agents, and integrations
- Managed teams, hiring, mentoring, and establishing engineering standards
- Defined KPIs and drove continuous quality improvement
- Collaborated with R&D, DevOps, and Product to embed quality early
- Led transition from manual to automation, significantly increasing coverage

Automation Team Lead | YouCC (GoTech)

2022 – 2025

- Led Agile teams and delivered end-to-end automation solutions
- Built automation infrastructures across multiple technologies
